Since this breach, we have taken the following steps to ensure it does not reoccur (*attach additional pages if necessary*)

To help prevent something like this from happening in the future, Johnson Hearn has enhanced the security of their systems.

Any other information that may be relevant to the Office of Attorney General in reviewing this incident (*attach additional pages if necessary*)

We are writing on behalf of our client, Johnson, Hearn, Vinegar & Gee PLLC (Johnson Hearn), to notify you of a security incident involving Indiana residents. On January 16, 2017, our client became aware of a ransomware attack of their computer system. Our client immediately began an investigation, reset passwords, removed the server from the system, and began using a back-up of their system. As part of their investigation, Johnson Hearn engaged a leading forensic firm, and it determined that an unknown person remotely accessed a server which contained files that may have included individuals' names, dates of birth, driver's license numbers or state issued identification numbers, social security numbers, financial information such as checking/savings account numbers, financial investment information, payment card information, and health insurance numbers. Although no evidence has been found that the unknown person accessed or acquired personal information, the nature of the incident is such that we cannot rule out that possibility. Johnson Hearn is notifying 2 Indiana residents in substantially the same form as the letter attached hereto, with written notification commencing today, April 14, 2017. Notification is being made without unreasonable delay. Johnson Hearn is offering affected individuals a complimentary one-year membership of Experian's® IdentityWorks. This report is not, and does not constitute, a waiver of personal jurisdiction.
